Earlier today, Oatman Water Company filed with the Arizona Corporation Commission a copy of a report from Mohave Engineering to ADEQ in Flagstaff. This report documented the final inspection of Mohave Engineering on improvements to the Oatman Water Company water system and forwarded all paperwork to ADEQ for their final inspection. In this earlier filing, it was requested that the report of Mohave Engineering be accepted to meet the requirements regarding the completion of construction and the above referenced docket number.

A further review of the order (Decision Number <sup>63626</sup>64832) indicated that the ADEQ Approval of Construction needed to be filed by October 31, 2002. If the ACC cannot accept the Mohave Engineering report, please accept this letter as our request for additional time to file the ADEQ Approval of Construction. The amount of time needed would be an additional 120 days.

Sincerely,

Stephen Anderson

Arizona Corporation Commission
